Any issues please contact me via:

info@aestheticsandskinsbysally.com

I haven't had Botox before, what type of appointment do I need to book?

Please book an initial consultation. A full assessment will be completed and together we will create a tailored treatment plan to ensure the best results for you.

I have had aesthetic treatments before, do I still need to book in for a consultation?

Yes. Even though you have had treatments before, as a new patient, a consultation is required in order to complete a comprehensive treatment history as well as a full assessment. The consultation is one hour and there may still time for a possible first treatment, depending on the treatment being booked. If you are booking multiple treatments, please advise via email so that we can aim to accommodate your required treatments where possible.

How much do treatments cost?

Our comprehensive range of treatments and products are competitively priced. Treatment charges vary according to the procedure to be carried out. Full details of our charges are available on the website and on the treatment list when you click to book online.

How do I pay?

A deposit is taken at the time of booking by card. Any remaining fee owing will be paid in clinic.

Do you dissolve filler?

We do. If you are wishing to have filler dissolved that was treated by a different practitioner, we advise you to return to them for the procedure. If this is not possible, we will complete an assessment in the initial consultation. Information that is required before treatment includes what filler you had and the date of treatment. A price for this treatment will be individually agreed.

When is your next availability?

Please access [Book Online](#) and your treatment choice, availability will then become visible.

Do you work evenings and weekends?

Yes, creating flexibility to suit the modern lifestyle. There are no set days, this changes weekly, as Sally also teaches aesthetics in London.

“I’m worried that I will look fake”

Our goal is for natural results of enhancement and restoration. Any queries or concerns you may have, can be discussed in your initial consultation.

I am getting married, when should I start treatment?

Please book a consultation as soon as possible to discuss your requested treatment options. It is recommended to have Botox and Filler 6 weeks before an event, allowing time for the treatment to settle.

Where do I park?

Parking is available on the driveway next to the house. There are alternative parking options in the lane opposite the house.

Can I bring my children?

Unfortunately not, the clinic is not a child friendly environment.

There is a wide range of treatment options available, how do I know which treatment to select or if a procedure will work on me?

During the consultation Sally will make an assessment and then she will be able to advise and create a personal treatment plan, to ensure the best results for you.

Do the treatments have any side effects?

All medical procedures have side effects of some type. Common side effects may be minor, such as a small bruise or redness, while other side effects may mean that you must stay out of the sun for a prolonged period of time. We will advise you on the steps that you need to take following your treatment.
